Reason for Termination Request: (Check One)

- ☐ Project site is stabilized with perennial vegetation, pavement, buildings, or structures using permanent materials over all areas that have been disturbed. With respect to areas that have been vegetated, vegetation coverage is at least 70% plant density over 100% of the site.
- ☐ The permittee sold the permitted site to an entity who has obtained a new land disturbance permit. The SWPPP has been amended to show the area is no longer under the original permit's jurisdiction.

I hereby certify that I am the legal owner of the property for which this permit termination is requested or his/her legally authorized agent.

Why these 3 requirements?

"The project is considered stabilized when perennial vegetation, pavement, buildings, or structures using permanent materials cover all areas that have been disturbed. With respect to areas that have been vegetated, vegetated cover shall be at least 70% of fully established plant density over 100% of the disturbed area."

DNR's Missouri State Operating Permit

"You may terminate permit coverage only if...you have removed all stormwater controls that were installed and maintained during construction, except those that are intended for long-term use following your termination of permit coverage."

EPA's Construction General Permit

"You may terminate permit coverage only if...you have removed all potential pollutants and pollutant-generating activities associated with construction."

EPA's Construction General Permit

Submitting this request will trigger a permit termination inspection by City staff.

If the site passes this inspection, the permit will be terminated and, if applicable, you will be asked to submit a release of securities form to release the escrow paid for land disturbance permit activities. This form can be found here: <http://www.springfieldmo.gov/2124/Land-Disturbance-Permit>

If the site does not pass this inspection, you will be notified of the issues that must be corrected prior to termination of the permit. Depending on the permit's expiration date, you may need to renew it at this time. For the renewal form, please visit: <http://www.springfieldmo.gov/2124/Land-Disturbance-Permit>

Renew Your Land Disturbance Permit

If land disturbance activities are expected to continue after your permit's expiration date, a renewal application must be filed before your current permit expires. There is no fee to renew. For the renewal form, please visit: <http://www.springfieldmo.gov/2124/Land-Disturbance-Permit>
